OF OHIO.  
FOR VICE PRESIDENT,  
**CHESTER A. ARTHUR,**  
OF NEW YORK.

## OUR CERTIFIED CIRCULATION.

The Reno Gazette has an extensive circulation in the State of Nevada and in other States and Territories.

Sworn to before me by MARK PARISH, Clerk of Wash. County, July 15, 1880.

## A FLOATING HAREM.

A harem is no doubt a great convenience for a man who has settled down and stays at home, but is rather expensive and burdensome to take along with him on a journey. The ex-Khedive of Egypt has realized this. When he left Egypt he insisted upon taking with him his numerous harem, and had all his women stowed away in the yacht which bore him away from the land where he had reigned so long. But the ex-Khedive was somewhat strapped for money and when his yacht port he stopped at he was called upon to pay for 150 yards of ruching at four bits a yard, to say nothing of countless other items of a similar character, he determined to give his harem the ship. Seventy-five pairs of embroidered silk hose at \$5 a pair was what finally done him to desertion. He fled in the night with a very few of his favorite wives, leaving the remainder in possession of the yacht. The abandoned women have been ever since drifting about from port to port, pining for their recalcitrant husband, and running up tremendous bills in his honor wherever they have been able to get credit. They obtained permission from the present Khedive, to return home, but the representatives of foreign powers interfered and the order permitting their return was revoked. They tried to land at Constantinople, but were warned away. They last sailed from Smyrna, bound for Naples, where their cruel husband took French leave of them.

## A SCIENTIFIC EXPERIMENT.

Dr. Tanner's experiment of living forty days on air and ice is becoming interesting. He has gone over sixteen days and is still able to ride out and walk a little. Suppose he fails. What then? It is startling to see a man attempting a feat where failure means a terrible death. A lady from Sacramento who is visiting friends here, relates a similar experiment made in 1873 in Bennington, Vt., by Rev. Fred W. Hicks. He had been a missionary to South America, and contracted Panama fever. He conceived the idea that if he were to go without food for thirty days it would leave him. Being a man of great bodily strength, and inheriting a good constitution he determined to try it. He lived twenty-eight days, the last seven he was a raving maniac. Dr. Tanner's experiment is purely in the interest of science. There is no wager or consideration in the matter.

## A WEAK TICKET.

The Democratic ticket was made to carry the three doubtful Eastern States New York, New Jersey and Connecticut. There are many Greenbackers in these States, and although the Democratic office holders and politicians may unite on Hancock and English, the Greenbackers will not be likely to vote that ticket. Hancock and English both have leanings towards hard money. It is probable that in the three States named the Greenbackers will vote the Weaver ticket, and although they cannot elect their candidate for the Presidency they can elect Congressmen and obtain, perhaps, a balance of power in the House. The Democratic ticket will catch few Greenback votes, and thus it fails to find favor with a large element of the Democratic party.

H. W. Beecher Rejects the Christian Religion.  
From the New York Times.

If words have any meaning, Mr. Beecher last Sunday morning proclaimed his rejection of the Christian religion, and his acceptance of a Rationalism, more vague, but not less anti-Christian than that of Theodore Parker.

## EDITORIAL NOTES.

The statement of Garfield, who, outside of his importance as a candidate, has become one of the great leaders of thought all over the Union, that "The recent movement of the Chinese to our Pacific coast partakes but little of the quality of immigration, either in its purposes or results. It is too much like an importation to be welcomed without restriction; too much like an invasion to be looked upon without solicitude. We cannot consent to allow any form of servile labor to be introduced among us under the name of immigration." will go far towards righting the sentiments of people east upon the matter. No legislation can be had, and if it could, none would be enforced that did not come backed by popular sentiment.

The Prince of Indian agents has been found in Oregon. The Canyon City News says there has not been an Indian on the Malheur Reservation since the Bannock war; yet Rhinehart, who is detected by the Plutes, is kept there as Agent. Having nothing else to do, he concluded to bring suits against the stock owners in Harney valley for permitting their cattle to enter upon the sacred precincts of the Reservation, and feed on land from which neither the Government nor the Indians derive any benefit whatever.

A wonderful discovery is reported from Green River, Utah, where it is said there has been found a deposit of carbonate ore, 3,000 feet in extent, of unknown thickness, and capped by an iron reef. The ore runs all the way from 800 to 700 ounces of silver to the ton, with forty per cent. of lead. This discovery is said to surpass in richness and importance the deposit for which Leadville has become famous.

Salmon are numerous in Monterey bay this season and they afford fine sport to the guests at the Hotel del Monte. The fish are captured by trolling in boats some distance off shore, using large spoons. A telegram received at San Francisco yesterday states that one boat, containing a party of four, on Wednesday took 500 pounds, a lady who was in the party catching over 100 pounds.

A California Republican State Convention for the nomination of Presidential Electors will be held at Sacramento, Aug. 11.

If Garfield had much to do with mules in his youth he should be the better able to cinch the Democrats now.

Chicago has 503,501 inhabitants, according to the census, and yet its people are not satisfied.

Hancock can write his name, anyhow, and that is more than many who will vote for him can do.

A Professor's Difficulty With the Harp.  
From the New York Observer.

Professor of Greek, who is out riding with his wife, notices that the horse is thirsty, and drives into a stream by the roadside; Professor remarks that there is evidently some weighty obstruction that prevents the horse from getting his head down to drink, and says that he will make observations with a view of detecting the difficulty. Suddenly he exclaims: "Ah, I perceive," and proceeds to unbuckle the crupper.

## The Bicycle Business.

There are more than two hundred distinct makes of bicycles in England, by nearly as many manufacturers. The capital invested in paint and machinery by these makers, is about one million pounds sterling. In London alone there are thirty thousand bicycles, and in the country outside, there are a hundred thousand. The same reliable English authority from which the above figures are derived estimates the amount of wages paid in the various shops to machinists making bicycles alone, at from twelve hundred to two thousand pounds per week.

## Tanner's Long Fast.

New York, July 15.—In entering on the eighteenth day, Dr. Tanner exhibits much improvement. From 9 o'clock last night until noon to-day he swallowed from 80 to 40 ounces of water. His weight this morning was 131½ pounds. Allowing one pound for the weight of his coat, he has gained four pounds since last Wednesday. He took a drive in Central Park this morning, and forced a dynamometer up to 151 against 80 yesterday. His pulse, when last taken, was 80; temperature 98.25; respiration, 16.

## Bought on the Nevada Legislature.

From the New York Sun.

Sharon, the silver-oid Senator of Nevada, has so grossly neglected his duties that he may not be able to buy his way through the rotten borough Legislature of that State.

Davidson, the jeweler, is a good one. Jan 19

## PACIFIC COAST NEWS.

Leadville's railroad is finished. There are 2,300 inhabitants in Lyon county, according to the books of the census enumerator.

The Eureka Base Ball Nine propose to make a tour of the leading towns in Nevada, during September, if satisfactory terms are offered.

Perley-Plaine, who killed John Ferris at Candelaria on the Fourth of July, has been acquitted of all blame, the evidence all going to show that he acted in self-defense.

The census enumerators report a population of 1,370 souls in Pioche, Bristol, Highland, Lake and Cave valleys. The county returns will probably show a population of 2,500.

The Los Angeles Herald says: Jailor Thompson has a pet fawn in the jail yard that is very fond of chewing tobacco. At regular intervals every day it knocks at the window, and as soon as it is supplied with the weed goes off contented.

Three routes are under consideration for the narrow-gauge to connect Eureka with the Utah Southern. One passes north of Ward and Osceola; another a little south of Ward, and the third goes near Tyber, Reveille, Pioche, Bristol and Ten-Tahute.

On the 13th, a man named Fielding, living at Yakima, W. T., attempted to outrage the person of a little girl, but fortunately the villain was frustrated. The father of the girl could with difficulty be restrained from killing the wretch. After he was lodged in jail the citizens talked strongly of lynching Fielding, but were prevented by the interference of the authorities.

The speed programme of the California State Fair has been published. During the week there will be sixteen races, two of which will be running, one pacing and thirteen trotting. The reason why there are to be no more running races is that the Pacific Blood Horse Association were dissatisfied with the purses offered.

During the past winter, George Hunsucker, who lives ten miles west of Lake Tahoe, devoted much of his time to trapping, with the following results. One American black fox, very valuable, seldom seen below British Columbia; four silver gray, seven cross and three red foxes, twenty-four pine martens, fourteen mink, two fishers, four otters, as well as numerous other animals of lesser note.

## Democratic Wit.

From the New York Sun.

The Republicans are inclined to take their turn in making mules play a prominent part in the Presidential campaign. Garfield's mule is the sort of animal to tow him up Salt River.

## Stop That Cough.

With a sample bottle of Kaiser's German Elixir. This is the most wonderful cough remedy ever introduced, being mild, yet positive in its action and soothing under all circumstances. Old and young may use it with perfect security. It is rich in the medicinal properties of tea, wild cherry and honey. Ask your druggist, Messrs. Osburn & Shoemaker, about its merits. They sell large quantities of it and it supercedes all others. The genuine bears the Prussian coat of arms and the facsimile signature of Dr. Kaiser, on the wrapper and has his name blown in every 75 cent bottle. Samples 35 cent. Large size 75 cts. only.

## Impure Breath.

Among all the disagreeable consequences that follow the decay of the teeth, an impure breath must be the most mortifying and unpleasant to its possessor, and it is the most incurable and offensive in society; and yet the cause of it may easily be removed by cleansing your teeth daily with the justly popular, dentifrice, Fragrant SOZODONT. It purifies and sweetens the breath, cools and refreshes the mouth, and gives a pearl-like appearance to the teeth. Gentlemen who indulge in smoking should cleanse their teeth with SOZODONT, as it removes all unpleasant odors of the weed. Ask your druggist for it. July 1st-D&W

## A Card.

## To The Masonic Fraternity.

The Northwestern Masonic Aid Association of Chicago is the largest and most prosperous in the U. S. It now numbers nearly 2,000 members—Gives \$5.00 cash to the needy of deceased Masons—has paid out about \$100,000 in six years, to widows and orphans and the annual cost of membership is but about one-fourth the expense of an ordinary insurance policy. There is no more certain, reliable or economical way of establishing an immediate estate, or providing for the future than by offering by the above institution. JOTTINGS.

— Mono is assessed \$1.  
— Imperial is assessed 20 cents.  
— The GAZETTE has got more new subscribers in the last two weeks than any paper in this state.  
— J. E. Jones says there is no immediate prospect of work being resumed at the J. & K. mine.  
— There are telegrams uncalled for at the W. U. office, addressed T. J. Fowler and O. W. Lomiller.  
— The Temperance Union picnic at Bowers, on Saturday of next week, bids fair to be a grand success.  
— Dark clouds have obscured the sky to-day, and light showers of welcome rain have descended this afternoon.  
— The Catholic church is nearing completion. The exterior is finished and painted. It makes a handsome edifice.  
— Members of the Reno Athletic Club can procure round trip tickets to the Turn-Vereia picnic at Carson next Sunday for \$2.  
— Waigom & Boiclaire, opposite Lee's stable, do all kinds of blacksmithing and wagon work in the most thorough manner, and also horseshoeing and repairing.  
— Some little catfish were placed in the drinking trough at Lee's stable a few years ago. They have thriven well and doubled in size, keeping the water clear of grubs and worms.  
— Dr. Bergeman started off in great haste for Washoe City this morning, and the probabilities are that he will report an addition to P. N. Marker's family on his return.  
— Boxing is one of the principal exercises at the Athletic Club meetings, and some of the muscular members occasionally get "a good one on the nob" in encounters with the gloves.  
— The White House keeps such a large assortment of everything in its line of goods, that its customers never have to go elsewhere for what they want. Abrams keeps everything in the way of genteel furnishing.  
— The silver trout are now running up the river. Several were caught at Camp 30, about twenty miles above Reno, a few days ago. They bite better than the dark, spotted Truckee trout. There should be good fishing here now.  
— Grasshoppers are thick in the fields surrounding the new Catholic church. Disturbed by a pedestrian last evening some of them leaped from the clover to a heap of boards, their descent sounding like the patter of rain drops upon the roof.  
— Harry Bowmer, who has just returned from Alturas, reports that there are no grasshoppers in Honey Lake valley or in Long valley. He saw millions of crickets this side of Alturas on Madeline plains, but they have not got on the ranches so far, and are traveling away from them.  
— The postponed picnic which Mr. Higgins proposed to give on the Fourth will be held at Donner lake some time next week—probably Wednesday. The lake is looking its best now, and the snow has all gone from its shores. It is a fine trip by rail, and there are several tunnels on the road. A large party will go up.

RESOLUTIONS OF RESPECT.

At the last meeting of McPherson Post, No. 12, G. A. R., the following resolutions were adopted:  
WHEREAS, It has pleased the Almighty Commander-in-Chief of the Universe to call from the ranks of the Grand Army of the Republic our comrade and fellow soldier, John P. McGee, to take his place upon the muster roll of that grand army of soldiers and patriots who have gone before him, and who freely gave up their lives that our country might live,  
Resolved, That in the death of comrade McGee our Post has lost a faithful and worthy member, and the country a brave, loyal and patriotic soldier, the community a good, upright and honest citizen, and his bereaved wife and relations a kind and loving husband and a true and sincere friend.  
Resolved, That with deep humility we acknowledge the great goodness of our Father in Heaven, and submissively bow to the inscrutable decrees of infinite wisdom, realizing and believing that "He doeth all things well," and earnestly beseech him to bless and protect while we pledge ourselves to aid and assist the bereft widow of our departed comrade.  
Resolved, That as a token of respect for the memory of our late comrade in arms, the charter of the Post be draped in mourning for thirty days.  
Resolved, That as a further token of respect to our late comrade the Adjutant of the Post be instructed to spread these resolutions in full on the records of the Post and transmit a copy to his bereaved family, and also cause the same to be published in each of the Reno papers.

A Grand Ball Next Month.  
The Knights of Pythias will have a celebration here in August, on the occasion of the assembly of the Grand Lodge, which meets in Reno August 9th. During the session of the Grand Lodge, which will last several days, there will be a Grand Uniform Ball in the Pavilion, and also an imposing street procession of Knights in full regalia. About 100 Knights are expected to attend from Virginia, and 25 each from Truckee and Carson. Charles Carr's band, of about eleven pieces, has been engaged from Virginia. The music alone will cost \$168. Tickets for the ball will be sold at \$2 50 each. It will be the most brilliant hop ever seen in Reno. The following Committee of Arrangements was appointed at the meeting of the Knights last Friday evening: J. M. Flanagan, Jas. T. Davis, G. A. Rankin, A. A. Evans and H. J. Thyges.  
Reform Club Entertainment.  
The following programme has been prepared for to-morrow evening's entertainment at Reform Club Hall. Exercises to commence promptly at 8 o'clock:  
Singing, No. 26.....Club Song.....Ella Lambirth Address.....Rev. Mr. Morgan (Subject, "Moral Power")  
Singing, No. 45.....Club Diet.....Kittie and Susan Elliott Recitation.....Minnie McKenzie Duet, Minnie Vailencourt and Ella Harrington.  
Reading.....Mrs. M. J. Huyck Solo.....Dickey Jose Reading.....Mrs. C. C. Powning Trio, Mrs. R. P. Chapin, Mrs. Hanford and Mrs. S. Hilliard.  
Fig Cultivation in Nevada.  
Dr. G. F. Needham, Washington, D. C., sends the GAZETTE his pamphlet, (third edition) "Fig Culture at the North," in which he shows conclusively that the people of the middle and northern States, by using the proper means, can grow figs of as good a quality, and in abundance at the north as at the south, that is, as fine as the imported. All, especially doubters, are invited to send for it, enclosing a three-cent stamp. The pamphlet gives all necessary information as to growing the trees, and preparing the fruit by various methods for home use and the market.  
A Startling Report Forthcoming.  
The Carson Times of last evening said it is understood that Attorney General Murphy has made an official and thorough examination into the affairs of the Reno Savings Bank, in connection with the action of its Vice-President and present State Treasurer, L. L. Crockett, about which much unfavorable comment has been made, and will shortly report his views in the matter to the State Board of Examiners, consisting of Governor Kinkead, Secretary Babcock and the Attorney General himself. It is believed that the report will be a rather startling document, and will contain nothing tending to gloss over certain peculiar and questionable transactions.  
Splendid Crops in Sierra Valley—Hoppers Doing No Damage at the North End.  
Summit, Plumas Co. Cal., July 8.  
Editor Gazette:—I see an item going the round of the press to the effect that the grasshoppers have completely destroyed the crops in the north end of Sierra valley. Now, not only is this a mistake, but on the contrary the hoppers have not done us the slightest damage so far. Those that have hatched in our neighborhood seem to be fast disappearing, and no danger is apprehended, at least the only fear is that they may come back on us from other sources. The crops are splendid, especially grass. A few have commenced cutting and all will be at it in a week or ten days. B. F. B.

BUILDING A BUSINESS.

Home Made Furniture Made From Native Materials.  
The furniture business of the Truckee Lumber Co. is losing its auxiliary character, and is becoming a leading feature in their extensive operations. The woods used are all grown on this side of the mountains, except the black walnut, and there is no shrinking or warping as there is in all other kinds. There is no country that tries furniture like Nevada, unless it is Arizona. Beds and chairs that would last a hundred years in a moist climate begin to rattle in a month after they come here. The Truckee Lumber Co. uses the best of pine, and keeps good workmen. Their furniture can be recommended for this climate. The factory is divided into shop, paint shop and ware room. The shop is 220 feet by 40 feet, the paint shop 100 by 40 and the ware room 60 by 60. Fifteen men are employed. The market extends to Salt Lake on the east and San Francisco on the west, and Arizona on the south; including intermediate points, such as Eureka, Virginia, Reno, Grass Valley, Colfax, etc. The prices are as low as any factory in San Francisco can sell at, so that by patronizing them money is saved, and the customer has the satisfaction of helping to build up a home institution.  
A Happy Day for the Children To-morrow.  
The little Methodists will have a good time to-morrow at the Riverside Picnic Grounds. No fear but that when the church bell rings at 8:30 to-morrow morning they will be on hand. Teams will convey them and their mammas, and their sisters and cousins and their aunts to the grounds. Each lunch basket (and the lunch basket is the all-important thing at a picnic) should be carefully labeled with the name of the person, family or clan to whom it belongs. This precaution is not to be observed because of any probability that picnickers are apt to appropriate what does not belong to them, but in order to save confusion and trouble in sorting out the baskets on the grounds. There will be stands down by the river, where lemonade, ice cream and other delicious cool compounds will be sold at the usual fair picnic prices.  
Mining Excitement in Honey Lake Valley.  
A Frenchman named Ganyon discovered a rich gold quartz ledge in Honey Lake valley a few days since, about five miles southeast of Janelville. The ledge is situated high up on a hillside, and about a quarter of a mile from the post road. The float rock is rich in free gold, and the quartz is rusty. The claim is to be developed as fast as possible and the necessary capital is said to be at the disposal of the locators. They had got down only three feet on the ledge when the GAZETTE's informant passed by.  
Personal.  
Henry Northrop struck out for Candalaria yesterday.  
Supt. John Kelley of the Lady Bryan mine was down from Virginia last evening. Rumor has it that he intends to buy the Desert Salt Works. While his other learned brothers in the law are poring over their briefs in town Judge Webster puts fresh bait on his hook at Pyramid lake and soaks the rheumatism out of his feet.  
Fish Dying in Eagle Lake.  
The fish in Eagle lake are dying by millions, and floating to the shore, causing in places an intolerable stench. There is something unaccountable about it, as there is no apparent cause, the water appearing as clear and as pure as it ever was, the Mountain Review says.  
Attention Knights.  
Castle Hall, Amity Lodge No. 8, K. of P. All members are requested to meet at their hall in full uniform for Battalion Drill this (Friday) evening, at 8 o'clock P. M. sharp. By order A. A. Evans, C. C.; Chas. J. Campbell, K. of R. & S.  
Suicide at Washoe City.  
At half past 8 o'clock last evening in Washoe City, a man named Oatave Murray cut his throat while crazed with whiskey. He died at 4 o'clock this morning. He was an unmarried laborer about twenty-eight years old.

BY TELEGRAPH.

A Desperate Tramp's Valor.  
CHICAGO, July 16.—A Times special says that in Carroll county Ark., a tramp robbed the house of J. W. Myers. He pursued and found the tramp at a house, and covered him with a rifle. The tramp threw Myers off his guard and shot him dead, then fled. A Sheriff's posse surrounded the house and fired a volley as the tramp appeared at the door. He returned the fire and took to a field. The posse followed and fired a volley which brought him down, but before dying, he shot one of the posse dead.  
War in Montenegro.  
SCUTARI, July 16.—The Albanians have renewed their attack on Montenegro. Artillery fire is now progressing, and the Albanian forces are hurrying to the front. Turkey supports the Albanian League. Prince Montenegro is restraining his warriors with difficulty, pending an appeal to Europe.  
Shot by His Brother.  
WHEATLAND, July 16.—While two little boys, aged 7 and 10, sons of Edward O'Brien, were playing with a shot gun yesterday, it was accidentally discharged, killing the youngest boy instantly.  
Forest Fires in New Brunswick and Maine.  
ST. JOHN, N. B., July 16.—Forest fires are raging on the line of the railway through to Watawamkeog bay, doing considerable damage to property.  
Lightning's Work in Pennsylvania.  
BRADFORD, Pa., July 16.—Two more oil tanks have been struck by lightning and are burning furiously. There is great excitement. The damage will be heavy.

## REPUBLICAN PLATFORM.

Following is the text of the resolutions adopted by the Republican National Convention on Saturday, June 5, 1880:

Republican rule has restored upon a solid basis payment in coin for all the national obligations, and given to the currency absolutely good and legal, and equal in every part of our extended country. It has lifted the credit of the nation from the point where six per cent bonds sold at 85, to that where four per cent bonds are eagerly sought at a premium. These are administration railways have increased from \$1,000 miles in 1840 to more than \$24,000 miles in 1870. Our foreign trade has increased from \$70,000,000 to \$1,000,000,000 in the same time, and our exports, which were \$200,000,000 less than our imports in 1870, are now \$200,000,000 more than our imports. The war cloud, darkened the ordinary expenses of government, besides the enormous interest on the public debt, and disbursed annually more than \$50,000,000 for soldiers' pensions. It has paid \$50,000,000 of the public debt, and by retarding the balance at lower rates, has reduced the annual interest charge from nearly \$15,000,000 to less than \$5,000,000. All the industries of the country have revived; labor is in demand; wages have increased, and the country is again becoming a land of opportunity. The country there is evidence of a coming prosperity greater than we have ever enjoyed. Upon this record the Republican party asks for the continued confidence and support of the people, and this convention submits for their approval the following statements of the principles and purposes which will continue to guide and inspire its efforts:

## EXAMINATION OF PRINCIPLES.

First. We affirm that the work of the last twenty years has been such as to constitute the basis of the nation, and that the fruits of the costly victories which we have won are being imperiled by the action of those who would destroy the Republic. The peace regained should be cherished. That the dispersed and scattered elements of the Republic should be perpetuated, and that the liberties secured to this generation should be transmitted undiminished to future generations. That the order established and the credit acquired should never be imperiled. That the principles proclaimed and the glory won should be maintained, and that the Republic should be preserved. That the full payment of every debt thereof. That the reviving industries should be further promoted, and that the commerce already so great should be steadily encouraged.

Second. The Constitution of the United States is the basis of our government, and the compact. Out of the confederated States it made a sovereign nation, some powers are reserved to the States, some to the people, and some to the States; but the boundary between the power delegated and those reserved is to be determined by national and not by State tribunals.

Third. The work of popular education is one of the great duties of the nation, and it is the duty of the national government to aid that work to the extent of its constitutional ability. The intelligence of the people is the basis of the Republic, and the duty of the national government to aid that work to the extent of its constitutional ability. The intelligence of the people is the basis of the Republic, and the duty of the national government to aid that work to the extent of its constitutional ability.

Fourth. The Constitution wisely forbids Congress to make any law respecting a religious test for any office or honor. That the duty of the national government to aid that work to the extent of its constitutional ability. The intelligence of the people is the basis of the Republic, and the duty of the national government to aid that work to the extent of its constitutional ability.

Fifth. The Constitution wisely forbids Congress to make any law respecting a religious test for any office or honor. That the duty of the national government to aid that work to the extent of its constitutional ability. The intelligence of the people is the basis of the Republic, and the duty of the national government to aid that work to the extent of its constitutional ability.

Sixth. Since the authority to regulate immigration and intercourse between the United States and foreign nations rests with Congress of the United States and its officers, making power, that the Republican party, regarding the unrestricted immigration of the "Chinese" as an evil of great magnitude, invokes the exercise of the power to restrain and limit the immigration of the Chinese, and to such extent as may be deemed wise and reasonable, and to such extent as may be deemed wise and reasonable, and to such extent as may be deemed wise and reasonable.

Seventh. The Chinese, the early career of our nation, have been in peace and war, and which guided the light of his immediate predecessor to a Presidential candidate, have continued to inspire him in his career as chief executive, and that history will record to his administration the hours of our nation's history, and that history will record to his administration the hours of our nation's history, and that history will record to his administration the hours of our nation's history.

Eighth. We charge upon the Democratic party the habitual sacrifice of justice and patriotism to a sordid and ignominious lust for office and patronage; that to obtain possession of the national and state governments and the control of place and power, they have obstructed all the efforts to preserve the purity and conserve the freedom of suffrage; that they have used every means to corrupt the electors; have labored to obtain lawfully elected members of Congress, to secure at all hazards the vote of the majority of States in the House of Representatives; have endeavored to occupy by force and fraud places of trust given to people of color, and have rescued by the outrage and action of Maine's patriotic sons; have by methods vicious in principle and traitorous in practice, attached partisan legislation to appropriation bills; have crushed the rights of individuals, and trampled upon the rights of the nation, and have endeavored to obliterate the sacred memories of our fathers, and to overturn the institutions of our fathers, and to overturn the institutions of our fathers, and to overturn the institutions of our fathers.

We affirm it to be the duty and purpose of the Republican party to restore all the legitimate means of (all) Union to secure the perfect harmony which may be practicable, and we submit to the practical, sensible people of the United States, and whether it would not be dangerous to the best interests of our country at this time to surrender to administration of the national government, to party which seeks to overthrow the existing policy under which we are so prosperous, and thus bring destruction and confusion where there is now order, confidence and hope.
